2026 General Information

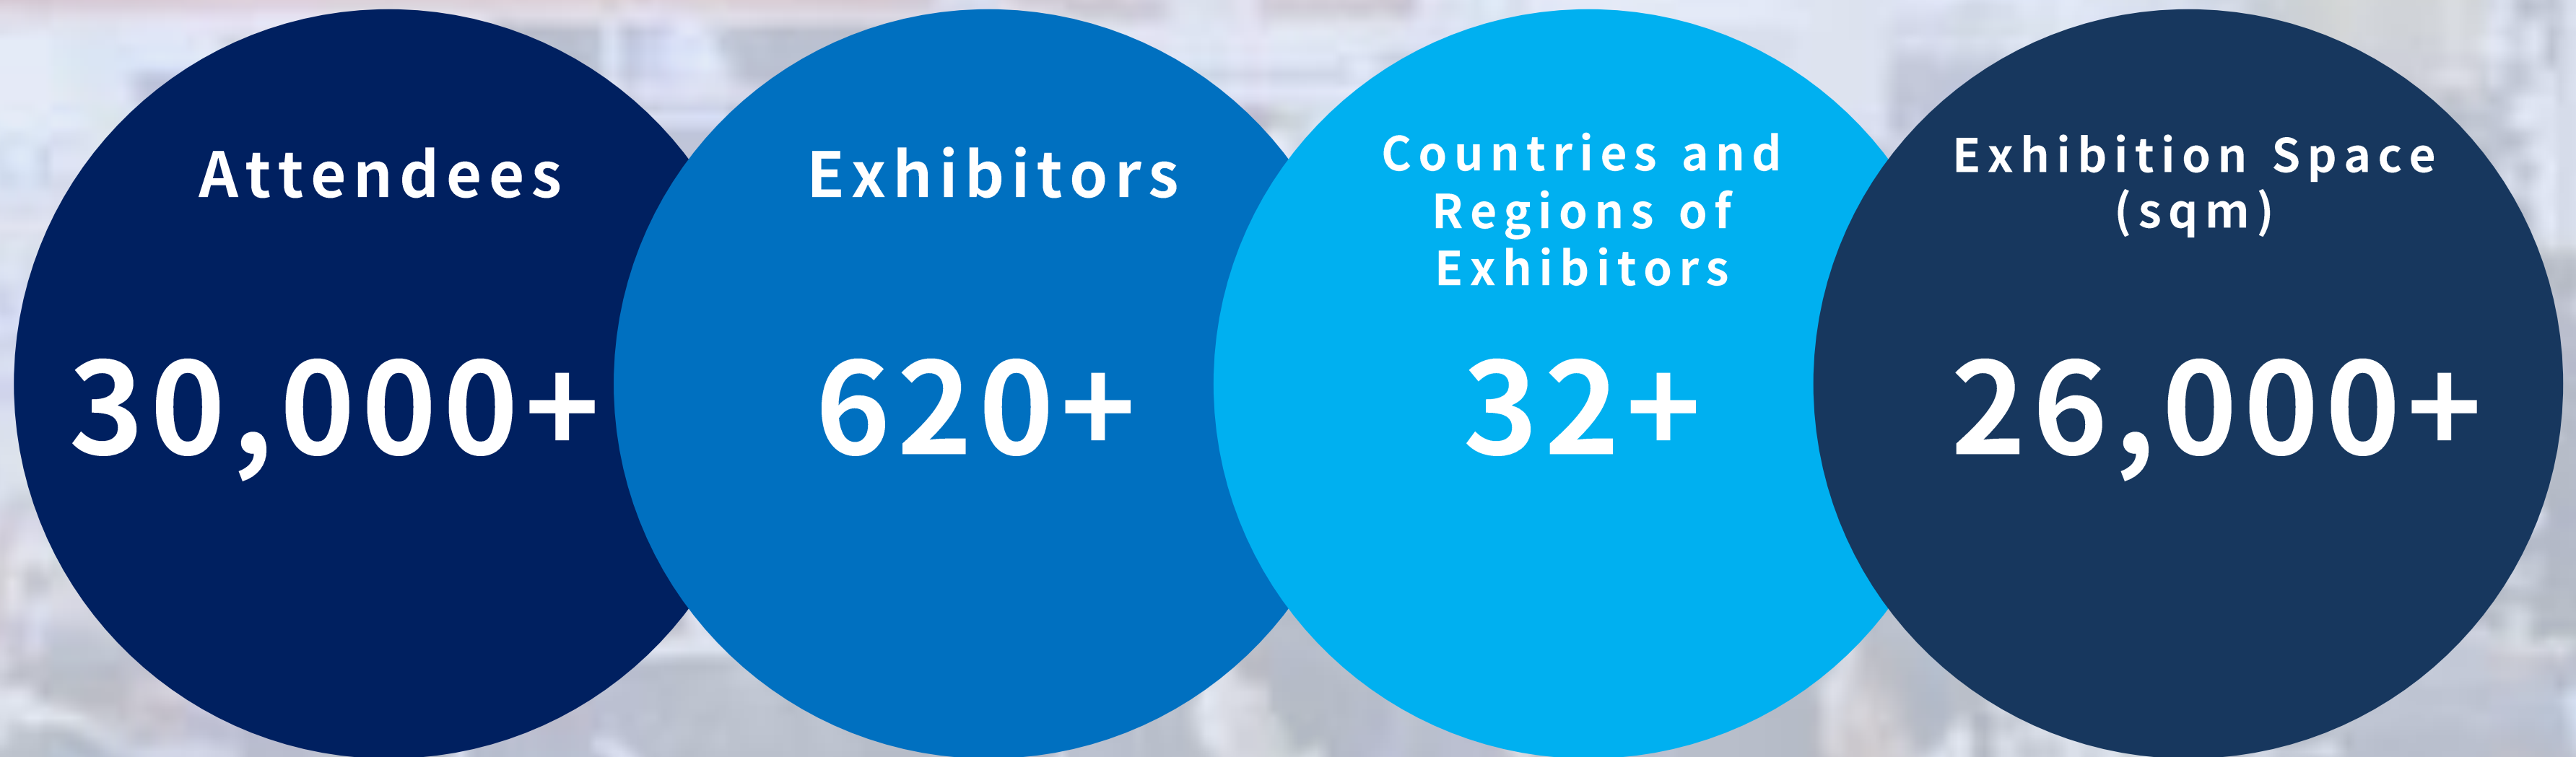

Sea Japan- The Largest International Maritime Exhibition in Japan

Sea Japan, an international exhibition for the maritime industry, including shipbuilding, shipping, and marine equipment, has been held every two years since 1994 and has been widely used by industry professionals from Japan and abroad as an opportunity for announcing new products, conducting business negotiations with customers, finding new partners, and building industry networks. The last time the exhibition was held in 2024, it celebrated its 30th anniversary and was the largest ever.

For the next edition, we aim to further expand the size and scope of this international exhibition for the next generation of the maritime industry. In addition to "Offshore & Port Tech", an exhibition that has been held in conjunction with the previous show, this year we will hold "Digital Solution Square" for the first time, focusing on productivity improvement, work style reform and new value creation in the digital field. There will also be a project to promote the development of human resources that will support the next generation of the maritime industry.

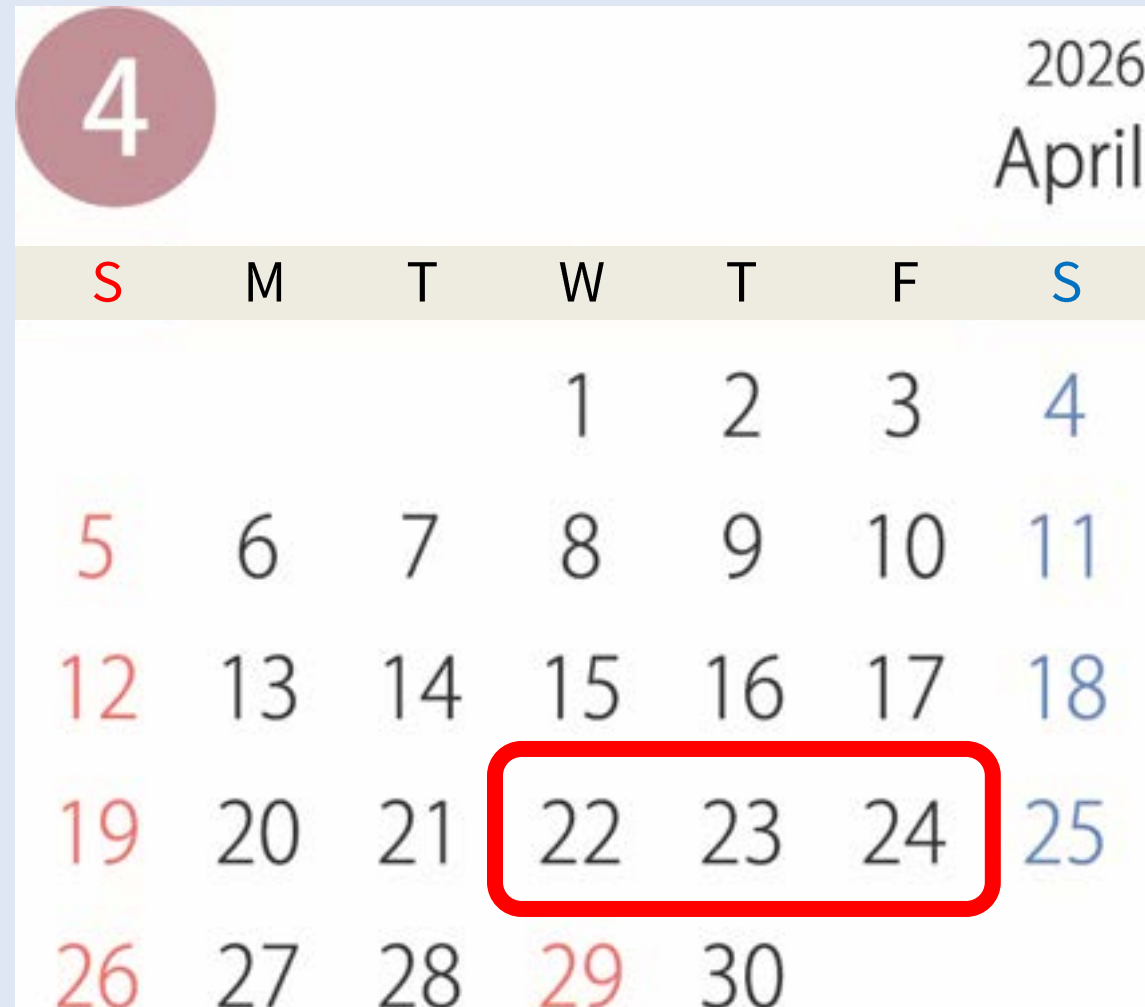

By bringing together people and information, we hope to create a lively exchange that transcends barriers and contributes to the future of the maritime industry, and we look forward to your support and cooperation.

Largest Ever ~ Sea Japan 2024

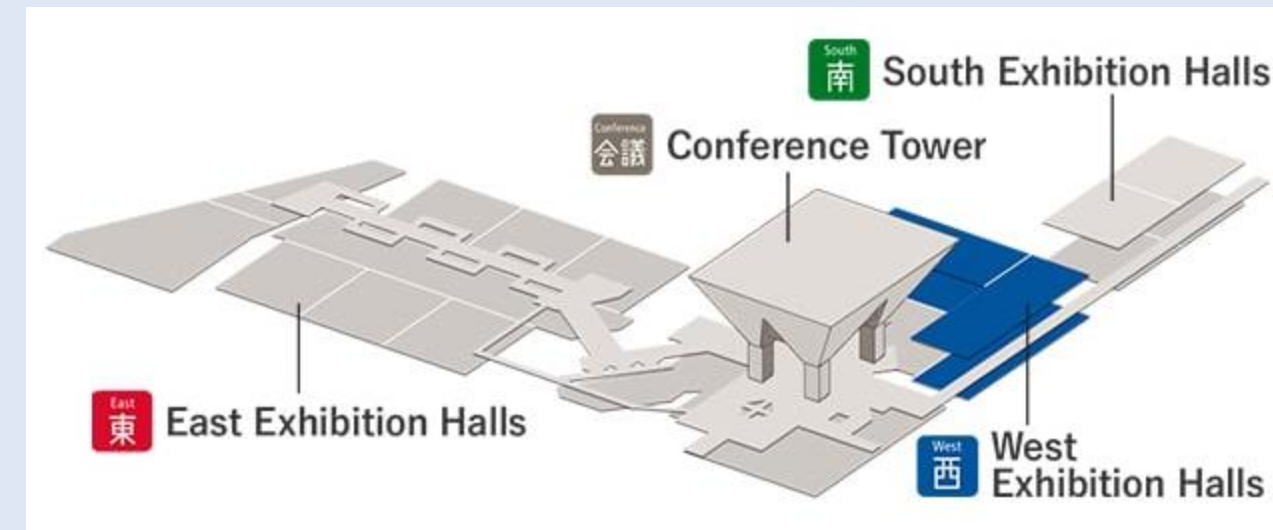

Date changed to late April

In Japan, the dates are ideal for visiting exhibitions, and it is a time when new business opportunities are likely to emerge.

The venue will be in the West Hall

The West Hall will provide easy access to the train station and conference halls.

**Offshore &
Port Tech**

Focus on new marine industries such as “marine renewable energy” including floating offshore wind, “carbon neutral ports” to decarbonize ports, and next-generation mobility at sea “AUVs, ROVs, underwater drones and robots”

Exhibitor examples

Work Vessels, Ship Repair/Ship Related Technology, Floating Offshore Wind, Marine Renewable Energy/Structures/Parts /Systems, Oil & Gas Related, Energy Storage/Transportation/Supply Facilities, Hydrogen/Ammonia Fuel Technology, CO2 Capture Technology/Equipment, Landfill/Dredging, Drilling Equipment/Services, Cargo Handling and Transportation Machinery, Sensor/Inspection/Measuring, Automation/Control Systems, Berthing and Leaving Technology/Equipment, Mooring/Positioning/Anchoring, Pumps/Cranes/Suspension Equipment, Compressors, Ropes/Chains, Excavators, Cables, Welding, Painting /Coating, Submarine Exploration Technology, Communication Equipment, AUV, ROV, Robots, Drones, AI/Simulation Software, Lighting, Security/Safety Equipment, Surveying, Energy Saving Technology, Consulting, Human Resources Development/ Recruiting, Weather Services, Insurance/Financial Services, Publishing/Information/Other

New

Digital Solution Square

**Productivity Improvement, Work Style Reform,
and New Value Creation**
through Digital Technology and Data Leverage

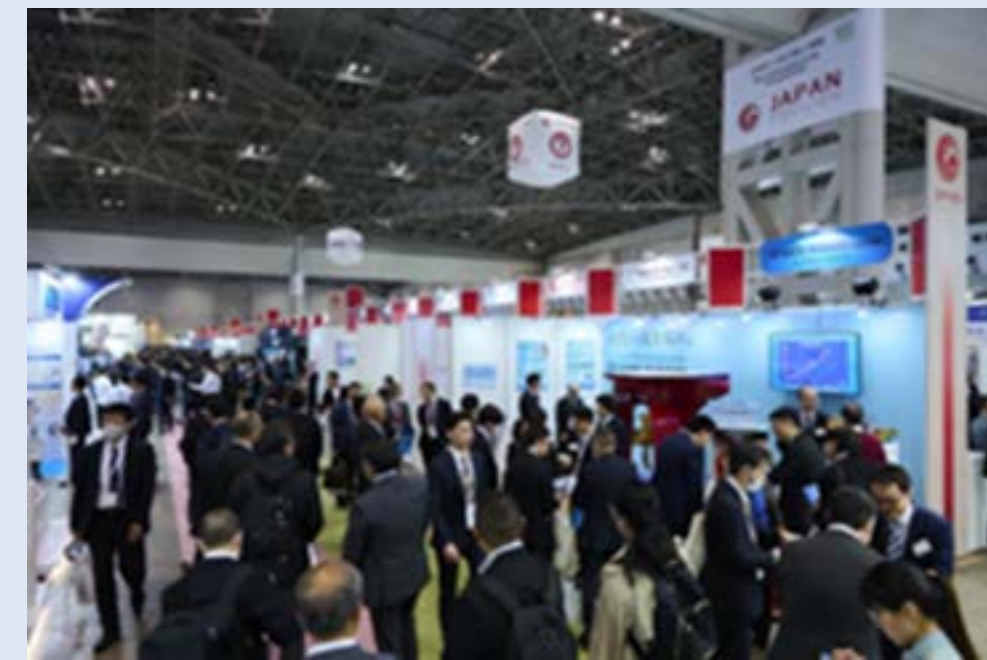

Exhibitors examples

Design and manufacturing support systems, operations support and automation systems, monitoring and control systems, management support tools, satellite communication services, data processing and analysis, EDI systems, AI services, cybersecurity measures, network equipment, digital platforms, e-learning, human resources and work management tools, etc.

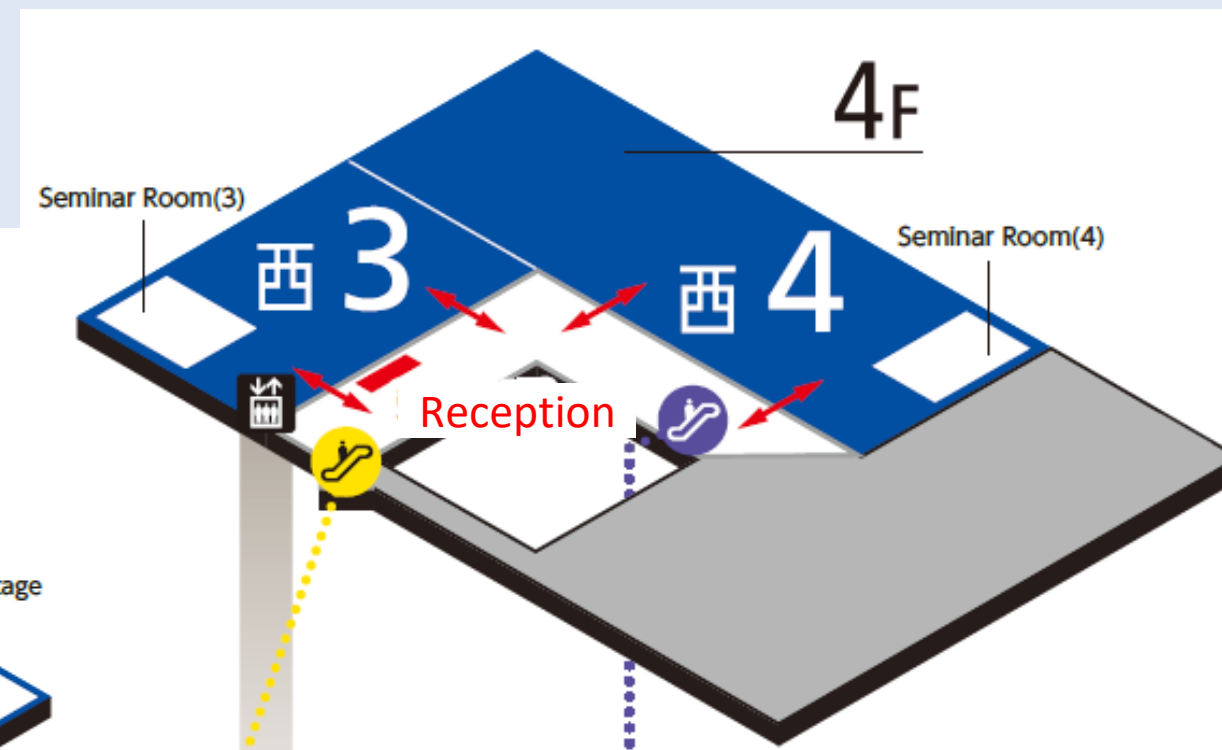

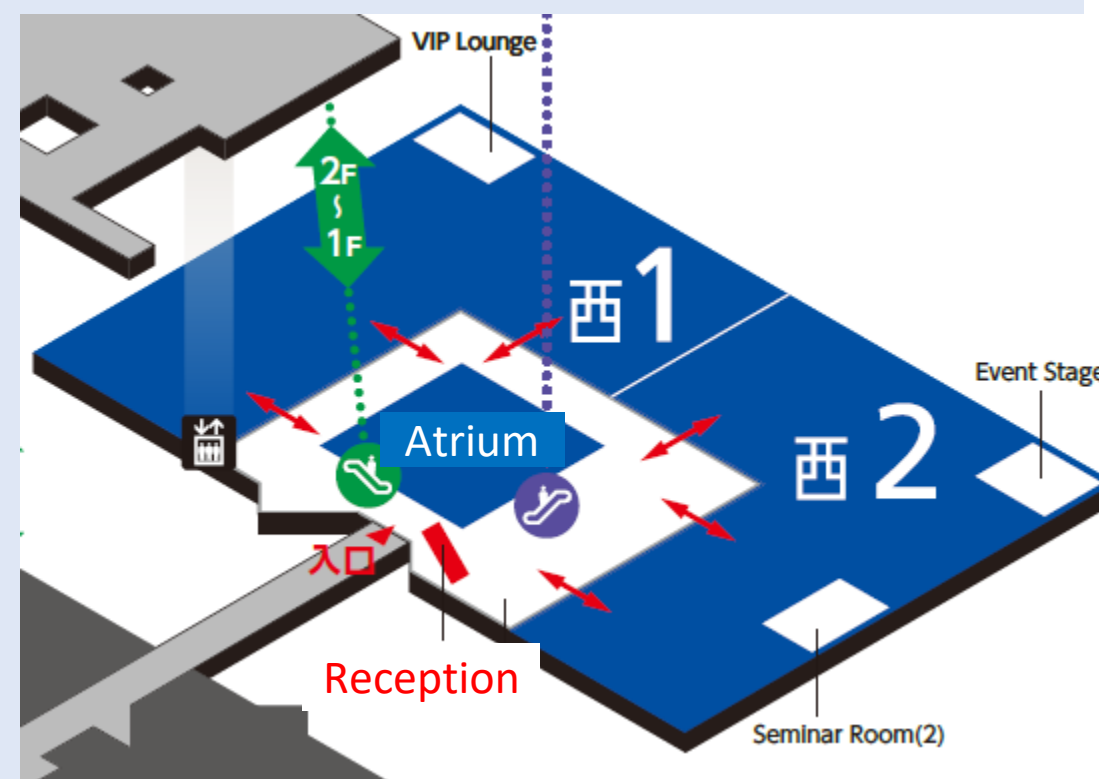

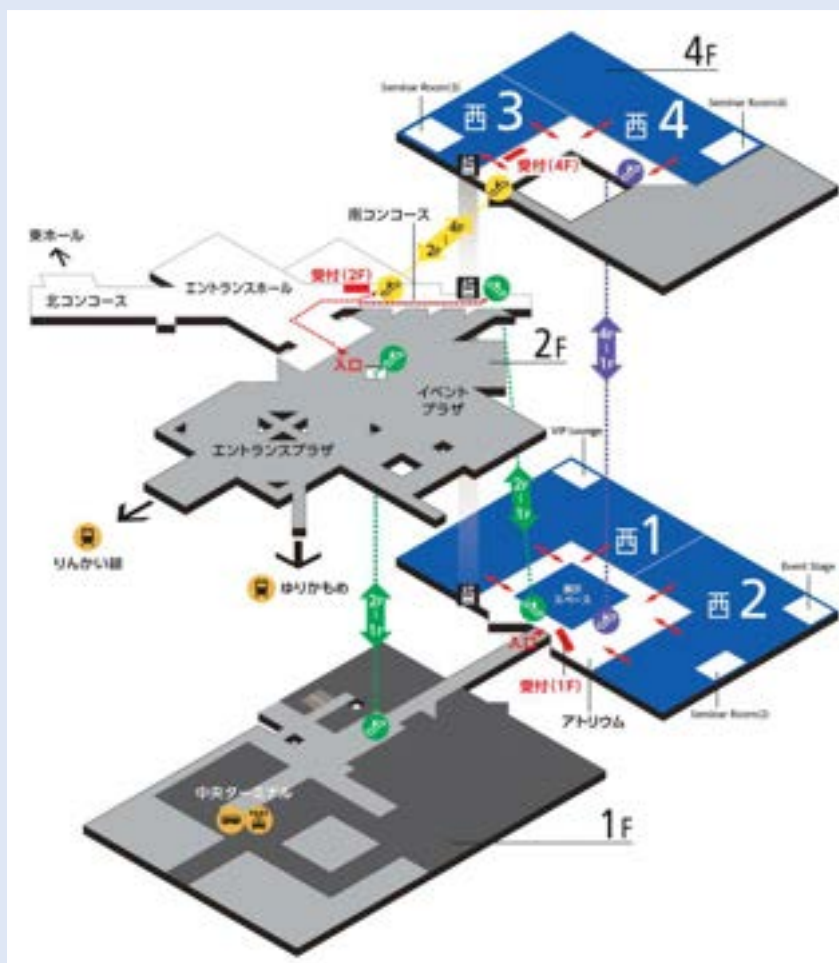

"Japan Pavilion" will be set up, consisting of **"Theme Zone"** by the Sea Japan 2026 Special Planning Committee and **"Members Zone"** consisting of member companies of the Japan Ship Machinery and Equipment Association (JSMEA)

As in the past, a "SEA JAPAN 2026 Special Planning Committee" consisting of the Ministry of Land, Infrastructure, Transport and Tourism, government agencies, maritime-related organizations and maritime-related companies will be established with the cooperation of the Nippon Foundation to form a "Theme Zone" to showcase the best products, technologies and services in Japan.

A "Members Zone" consisting of member companies of the Japan Ship Machinery and Equipment Association (JSMEA) will also be established, and together with the above "Theme Zone" will be developed into a large-scale "Japan Pavilion".

Venue Plan

SJP: Sea Japan
OPT: Offshore & Port Tech
DSS: Digital Solution Square

West 1H (1F)	SJP, Japan Pavilion, VIP Room, Seminar Room	Floor load capacity: 5t/sqm, Up to 10t vehicles can be carried in
West 2H (1F)	SJP, OPT, Japan Pavilion, Event Stage, Seminar Room	Floor load capacity: 360kg/sqm, No vehicle entry, Anchoring and water supply/drainage work not allowed
Atrium (1F)	DSS, SJP, Seminar Room	Floor load capacity: 2t/sqm, Up to 4t vehicles can be carried in
West 3H (4F)	SJP, Seminar Room	-
West 4H (4F)	OPT, SJP, Seminar Room	-
Conference Tower (1F,6F)	Opening Ceremony, International Conference, Seminars etc.	-

Actively attract students, young people, and young professionals who are interested in the maritime industry.

Enhancement of guidance (Plan)

Creation of a dedicated web page and flyers for students

Add a search function for exhibitors who can respond to company information for students.

Add “Students” to the visitor category

Strengthen direct PR to schools and academic societies

Initiatives within the event (Plan)

Expansion of on-site services such as group reception and meeting place

Expansion of concurrent events such as ship tours

Expansion of human resource development seminars
